## Senator Jones Gives it Up.

Prom the St. Paul Daily Globe, Senator Jones, it is said, has at last been brought to see the uselessness of his campaign waged or his own behalf in Detroit, and has in-licated his intention to return before the wintry blasts begin to blow from off Lake Erie's frozen surface to his own balmy Florida, where maidens are more kind, and where, instead of vigorous mulwinter storms, the gentle breezes softly stir the palmetto leaves.

This declared intention of the senator's, in view of his persistent haunting of Detroit for so many months, is sur-prising enough, but his further purpose, is expressed in a letter to a friend, is even more surprising. He intends to be again a candidate before the Florida legislature for reelection to the senate. Had his pursuit of the obstinate Detroit beauty, at whose shrine he knelt in vain, been crowned with success his constitu-ents might have forgiven the absence from his post of duty, and even com-mend his cause. But when he returns smitten with defeat, and thus incidentally reflecting upon every true born southern-er, he cannot expect to be granted the senatorship as a kind of consolation prize. Had he returned with the prestige of victory, the young woman on his arm, he would have been heralded with the approbation due a conqueror, and the senatorship willingly conceded to him but it frowns upon a lover who gets left

## Western Journalism

For genuine wild western bounce the Globe Democrat is to be commended. Its very latest freak was to pin to the coats of thirty reporters, black, white, and red satin badges bearing these words;

Alum was found in twenty-nine sam ples. This drug is employed in baking powders to cheapen their cost. The presence of lime is attributed to the im-pure cream of tarter of commerce used in their manufacture. Such cream of tar-ter was also analyzed, and found to contain lime and other impurities; in some samples to the extent of 93 per cent. o their entire weight.

All the baking powders of the market with the single exception of 'Royal' (not including the alum and phosphate powders, which were long since discard-ed as unsafe or mellicient by prudent housekeepers) are made from the impure cream of tarter of commerce, and conse-sequently contain time to a correspond

The only baking powder yet foun by chemical analysis to be entirely free from lime and absolutely pure is the "Royal."
